

Advanced Photography Assignment #1:

7 Shots From Your Journey To Here

The whole idea or concept behind our first project “7 shots from your journey to here” is to start noticing the world within where you live. However you get to school, I would like you to capture the images that stand out, have meaning, or are aesthetically pleasing for you. The world around us, however, is sometimes not always one of beauty and pleasure. If that’s what stands out for you, shoot it. Anything that you consider worthy and can explain the “why” is fair game.

Skills Mastery List:

- /7 Do I have my 7 images that **show** the time lapse of a journey from one place to another?
- /1 Do I display my images in order
- /1 Are my images of high quality (i.e. Not blurry, subject is focussed, follows photo composition when necessary)
